T H E
AMERICAN NEGOTIATOR,
O R T H E
VARIOUS CURRENCIES
O F T H E
BRITISH COLONIES
I N
A M E R I C A ;

As well the ISLANDS, as the CONTINENT.

The CURRENCIES of,

NOVA SCOTIA,	EAST JERSEY,	VIRGINIA,
CANADA,	PENNSYLVANIA,	NORTH CAROLINA,
NEW ENGLAND,	WEST JERSEY,	SOUTH CAROLINA,
NEW YORK,	MARYLAND,	GEORGIA, &c.

And of the ISLANDS of

BARBADOES,	St. CHRISTOPHERS,	NEVIS,
JAMAICA,	ANTIGUA,	MONTSERRAT, &c.

Reduced into ENGLISH MONEY,

By a Series of TABLES suited to the several Exchanges
between the COLONIES and BRITAIN, adapted to all the
Variations that from Time to Time have, or may happen.
With TABLES reducing the current Money of the Kingdom
of IRELAND into Sterling, and the contrary, at all the
Variations of Exchange.

A L S O,

A Chain of TABLES for the interchangeable Reduction of the
Currencies of the Colonies into each other.

And many other useful TABLES relating to the Trade in
A M E R I C A.

By J. W R I G H T, Accomptant.

The T H I R D E D I T I O N.

L O N D O N :

Printed for the Proprietors, by J. SMITH, *Wellclose-Square*, and
sold by Messieurs HAWES, CLARKE and COLLINS, Booksellers in
Paternoster-row; and by the Booksellers in *Great-Britain and Ireland*.

M D C C L X V.

(Price bound SEVEN SHILLINGS.)

THIS Work is entered at Stationers-Hall,
according to Act of Parliament.

TO THE
RIGHT HONOURABLE
SAMUEL Lord SANDYS,
First Commissioner for TRADE and
PLANTATIONS.

MY LORD,

THIS Work, calculated for the general Use of all His *Britannic* Majesty's Subjects, whether residing in *Europe* or *America*, who have Property in, Connexions with, or Trade to that Part of the World, I humbly presume naturally recommends itself to Your LORDSHIP's Patronage.

THE very numerous Subscription this Work has been favoured with, from many eminent *American* Merchants, and other Persons of Note, sufficiently evince the Utility of the Undertaking; which I hope will give Satisfaction: Your LORDSHIP's deigning to accept of a Dedication of this Work, crowns the Subscription List, which otherwise would look like a great Body without a Head; but being graced with Your LORDSHIP's Name, becomes now uniform.

I DO

I do not presume that it will add any Thing to Your LORDSHIP's Honour, in permitting me to present this Work to Your LORDSHIP; nor, on the other hand, will it, I hope, in the least depreciate Your LORDSHIP's honourable Character; but will rather be, in the Eyes of the impartial and right-judging World, a Testimony of Your LORDSHIP's kind Disposition, towards the Encouraging of any Thing that is new and useful to Mankind, in particular in what relates to *America*.

THAT the Affairs of the *British American* Colonies may flourish under Your LORDSHIP's Administration, with Honour and Satisfaction to YOURSELF; and that You may enjoy all Health and Prosperity, is the hearty Wish of

Your LORDSHIP's

Most devoted, obliged

And humble Servant,

Octob. 8,
1761.

JOHN WRIGHT.

INTRODUCTION.

THE Trade carried on between *Great Britain* and her *American Colonies* hath been for many Years very considerable, and of late Years greatly increased, and still daily increasing; and is happily in so flourishing a State at present, as to make up a very great Part of the extensive and vast Trade carried on by *Great Britain* and *Ireland*. The very great Quantities of Goods and Merchandize that are yearly exported to the Colonies, most of them of the Manufactory and Produce of *Great-Britain* and *Ireland*, and the very numerous Fleets that annually arrive from the said Colonies richly laden with the various and valuable Productions of the western World, which almost every favourable Wind wafts over from the Bosom of the *Atlantic Ocean*, are daily Testimonies of the Importance of the Trade to the Colonies, to such a Degree, as to be the principal Source of the Riches, Grandeur and Power of the *British* Nation, to which it has at present arrived, by the auspicious and benign Dispensation of Providence to the Wonder, Envy, and Jealousy, of the neighbouring Nations; and our good Neighbours the *French* in particular, who for near a Century past have made repeated Efforts, both by open War, as well as by sly and treacherous Methods, and every *Machination* in their Power, to deprive us of the Sources of Wealth and Power, which the Trade to *America* so evidently administers to *Great-Britain*. But the joyful Days are come, that the Bonds of *French* Power in that Part of the World are now broke asunder, and their Attempts to destroy or circumscribe the Bounds of the *British* Colonies, and consequently the Trade thither, happily subverted, overset, and destroyed, by the resulgent Beams of Providence, which have so remarkably shone on the *British* Arms, in the Course of the late War, and has placed the *British* Flag on every Fort and Port of the northern Part of the Continent in *America* (as well as several of the southern Isles) where the *French* Flag waved before; so that it may now be said in one respect of the *British* Dominions, what *Puffendorf*, in the Introduction to his *Roman History* says, of the Extent of the *Roman Empire*, which he says, was only bounded by Nature; having, for Bounds on the North, the frozen Hyperborean Mountains of *Sythia*, and on the South the burning sandy

sandy Desarts of *Africa*. In like Manner the *British* Empire in *America*, is at present only bounded by the Inclemency of Cold, and uninhabitable Woods and Wilds of *Terra incognita Borealis*, or the unknown Regions of the North. And also on the West of *Canada*, by Countries little known to the *Europeans*, which, as they lay in temperate and inhabitable Climates, 'tis hoped the *British* Nation will, in Process of Time be better acquainted with than at present.

'Tis certain, the present great Extent of the *British* Dominions in *America* are situated in, and comprehend all the Diversity of Soil and Climate, as is to be found in all the inhabitable Parts of the Globe; and consequently 'tis highly probable that every vegetable Production, that is now raised in all other Parts of the World, will thrive when transported to a Climate and Soil of the same Temperature as the Place of their native Growth.

The want of new Seeds and Plants, which are hard to be obtained and transported with vegetable Life in them, so far as from the *East* to the *West Indies*, is a great Obstacle; but nevertheless, may in Time be surmounted.

The Genius and Industry of the *British* Nation for planting and cultivating new Lands, and raising every Production their Soils and Climates in *America* are capable of producing, promise great Things on this Head, especially as the Colonists are encouraged by the Society for the Encouragement of Arts, Manufactures and Commerce, by the many Premiums they have offered for the raising new Productions in *America*, which Encouragement is said to be seconded by several of the Governments in the Colonies; which makes it more than possible, that in Process of Time, all the vegetable Productions, that are raised in the southern Parts of *Europe*, may be raised in the Colonies in great Abundance. These and other Considerations set before us the pleasing Prospect of the Trade to *America*, greatly increasing, to the reciprocal Advantage of the Colonies and their Mother Country.

It is not my Intention here to play the Geographer, or to dip into Politics, or commence Historian of any Class, either Political or Natural; these Subjects are amply treated of by many Authors of various Nations in *Europe*, in their respective Languages; insomuch, that a Collection of Books wrote on the Affairs of *America* would make a very considerable Library of themselves; and the respective Writers on these Heads, and what is found in Collections of Voyages and Travels, seem to have quite exhausted their respective Subjects, and must wait for new Events, Discoveries and Circumstances, to furnish them with new Materials further to expatiate on their respective Subjects, which no doubt Time will amply supply them with.

My Province here is that only of a numerical Writer, a dry tedious and elaborate Subject for an Author to execute with Exactness; and it must be confessed, has nothing in it to recommend it to those Readers who are only pleased with Strains of Eloquence and literary Compositions, that abound with Wit and Humour; but I hope, nevertheless the Class of Readers, for whose Use this Work is designed, to wit, the Planters, Merchants, Factors, Brokers, and all concerned in the Trade to *America*, will find their Account in consulting my Book on such Occasions, and on such Accounts, as their Affairs may require.

The whole Work is entirely New, every Table therein contained being originally done by myself, there being not one single Transcript from any other Author in the same. The Plan is founded on my own long Experience whilst I was concerned in Mercantile Affairs in *America*, for the Space of upwards of fifteen Years, together with the Prompts, Advice, Hints, Directions and Informations I have received from Gentlemen well versed in *American* Affairs, both by personal Conversation, and by Letters I have been favoured with, all which Gentlemen are Subscribers to this Work, and for whose Assistance, as well as their Encouragement, I hereby acknowledge myself highly obliged. I have been able to avail myself very little by reading even the best *American* Histories, or other Books on *American* Affairs, which have afforded me but very small Light towards laying my Plan; and have received more Information from one single Letter, from an Encourager and Correspondent, well versed in *American* Affairs, and a Resident here, than in turning over Volumes of *American* Histories, &c. As I have laid my Plan by the Help of the best Lights I have been able to obtain, so have I spared no Pains in executing it with the greatest Exactness, and have attended the Press with more than usual Care to prevent any Errors creeping in that Way, and am not sensible of any Error of Consequence in any one single Table, the Tables all proving themselves; so that no Error can be committed, if they are rightly used, as is directed in the Examples of their Use.

It is needless to say much on what induced me to set about this Work, and to finish it, let it suffice to say, that I thought such a Thing would be useful in the World, especially to Gentlemen concerned in *American* Affairs; and it is evident I thought right, by the very numerous Subscription the Work has been favoured with; and I hope the Subscribers will meet with no Disappointment in their Expectations, as the Work fully contains what is promised in the printed Proposals and Title Page, besides many Articles of Use not promised therein.

Why a Work of this Nature has not appeared before for the Trade to *America*, requires as short an Answer:

First, As a Book has been lately published for the Exchange for the Eastern Commerce, and met with a good Reception, I thought one for the Western would meet with the same.

Secondly, It seldom happens, that a proper Degree of Knowledge, Experience, Abilities, Leisure and Inclination, coincide or meet in the same Person, to induce him to set about the producing a new Thing of a particular Kind; which may be the Reason why new Things are late in their Birth, which often make them lay in the Womb of Time till all these Requisites unite to bring them forth to Light.

Of the AMERICAN CURRENCIES.

The several Provinces on the Continent of *North America*, and also the *Leeward Islands*, and *Jamaica*, subject to the Crown of *Great-Britain*, have, ever since their being settled, or subject to the said Government, or at least within these seventy Years last past, varied greatly in the way of Reckoning their Monies, or Currencies, from what has been by Law established in *England* or *Great-Britain*. The Currencies in the Colonies have fluctuated and varied so much, that they have differed greatly both as to Time and Place, seldom being the same in two different Provinces at a Time, and often changing Value in the same Place. In some of the Provinces they have deviated so much from Sterling Money, in the Way of reckoning their Monies, and run on to such a Degree of *Depreciation*, that two Shillings Sterling hath become equal to one Pound nominal Currency; or one Pound Sterling equal to ten Pound. At *Boston* in *New-England*, they run on in a continual Course of *Depreciation* in the Space of 47 Years, in an irregular progressive Advance, from 133 l. Currency for 100 l. Sterling to 1100 l. Currency for 100 l. Sterling;— A State of all the Degrees of *Depreciations* in the respective Years the Variations or Changes happened, from the Year 1702, to the Year 1749, together with the Value of Silver, both by the Ounce and Dollar, that correspond with the said *Depreciations*, are set down in the following Table.

Years,

Years,	Exchange,	oz. of Silver Cur.	Dollar Sterl.
1702	133	6s. 10½d.	4s. 6d.
1705	135	7s. od.	4s. 6½d.
1713	150	8s. od.	4s. 7½d.
1716	175	9s. 3d.	4s. 7d.
1717	225	12s. od.	4s. 7½d.
1722	270	14s. od.	4s. 6½d.
1728	340	18s. od.	4s. 7d.
1730	380	20s. od.	4s. 7½d.
1737	500	26s. od.	4s. 6d.
1741	550	28s. od.	4s. 5d.
1749	1100	60s. od.	4s. 8½d.

Their Money having thus run on to 1100 l. Currency for 100 l. Sterling, or 11 for one, a Stop was put to the farther *Depreciation* of the Money of the Province of *Massachusetts*'s Bay, in the Year 1750, by a Remittance in Money sent over from *England*, to the Amount of 183,000 l. Sterling, to reimburse the Expence that Province had been at, in the Reduction of *Cape Breton* in a former *French* War; the Money was mostly composed of *Spanish* Dollars. Their *depreciated* Paper Money, or Province Bills, were called in and paid off, at the Rate of 45 Shillings Currency for each Dollar, and the Bills burnt and destroyed; and a Law made, by which the Par of Exchange with that Province and *England* is fixed at 133⅓ l. Currency for 100 l. Sterling, and the Dollar at 6s. the same Currency. This Change was a pleasing Event, especially to those who had Correspondence with that Province. But I have been informed, that though they are obliged to keep their Accounts agreeable to the said Law, yet since that Time they have for some Years negotiated their Bills with *England* in old Tenor, or the old Currency, and that so late as within few Years last past, which is the Reason I have carried the Tables of Exchange so far as 1000; but I am just now informed, by a Gentleman lately arrived from *Boston*, that that Practice is now entirely laid aside; however, if the Tables that are carried so far cease to be useful at present, in what regards the Trade of that Province, they may some Time or other be useful for others.

The Currency of *Rhode Island*, has run on in a Course of *Depreciation*, from the Years 1744 to the Year 1759, from 450 l. to 2300 l. Currency for 100 l. Sterling.—An amazing *Depreciation* indeed, which made the Trade carried on by that Province (which is pretty considerable) perplexing to themselves and their Correspondents; but I am informed, they are endeavouring to put a Stop to such a mad *Depreciation*, and to put their Currency under some Regulation, which it is to be hoped by this Time is effected.

The

The Currency of *Rhode Island*, since the first Publication of this Book, has been regulated by a Law made in that Country, and their Currency put upon the same Footing with that of *Boston in New England*; a Regulation long desired and now happily accomplished, much to the Satisfaction both of the Merchants and Traders residing there, as well as their Correspondents in other Parts of the World.

The Currencies of several of the Provinces have at Times gone backwards and forwards in varying their Exchanges with *England*, some seem to be fixed, and others in a variable Situation. The Pars of Exchange with the several Provinces are at present, or lately were;

<i>Boston in New England,</i>	} $133\frac{1}{3}$	<i>South Carolina,</i>	700
<i>New York and</i>	} 175 or $171\frac{5}{7}$	<i>Georgia,</i>	100
<i>East Jersey,</i>	} see Page 325	<i>Jamaica,</i>	140
<i>Pensilvania and</i>	} 165 or $160\frac{3}{7}$	<i>Barbadoes,</i>	135
<i>West Jersey,</i>	} see Page 325	<i>Nevis and Mont-</i>	} 175
<i>Virginia,</i>	125	<i>ferrat,</i>	
<i>Maryland,</i>	145	<i>Antigua and St.</i>	} 165
<i>North Carolina,</i>	145	<i>Christophers,</i>	

By very late Information from *Quebec* and *Montreal*, as also from *Halifax* in *Nova Scotia*, *Anapolis* and the *Bay of Fundy*, the Rate of their Currencies may be fixed at 108, 109 or 110, the several Species of Money Current in all these respective Places, at present indicate, that these must be the equitable Rates of Exchange, the Dollar passing in them all for 5s. the Pistole for 18s. the *English* Guinea for 22s. 6d. the *Johannes* or 36s. Piece for 38s. 6d. and the *Moidore* for 29s. in their respective Places. At *Quebec* and *Montreal* the *New York* Traders, which supply the Places with Provisions, deal with the Inhabitants in *New York* Currency, in receiving Dollars at 7s. 6d. and Gold in Proportion. But these Exchanges and Values of Money in Specie in those Places may be no Standard for after Times, as they may probably soon vary, and for such Circumstances of Variation the Tables in this Book are suited, and will always serve.

A Question naturally will arise: How hath it come to pass or what is the Reason, that the several Currencies of the *British* Colonies have differed so much one from another, both in respect to Time and Place, and still do differ, from what is by Law established in *England*?

In Answer to which, I hope the following Reasons will in a great Degree be satisfactory. The several Provinces in their Infancy had but little Trade, and consequently little Money. The Tools, Utensils, and Necessaries for Planting, they were at

at first supplied with from *Britain*, involved them in Debt, before they were able to raise Goods for Exportation to pay their Creditors; and the Goods they first raised were often so ordinary in Quality, or so little in Quantity, that they were able to export to a foreign Market, that the net Proceeds of the same often turned out poorly, by which Means the Planters remained continually in Debt to the *British* Merchants, and occasioned the Balance of Trade to be always against them; and having neither Goods nor Cash sufficient to remit their Creditors, the Consequence has been, that many bad Debts have been made, and great Losses sustained, as the Merchants of *Great Britain* have but too fatally experienced.

When the Northern Colonies became more thriving, and by the Produce they raised were enabled to supply the Sugar Islands with Provisions, as Flour, Bisket, Salt-Fish of several Sorts, Horses, live Sheep, Hogs, Geese, &c. besides what is called Lumber, viz. Timber, Staves, Heading and Hoops, &c. they drew Money from thence; the only Sources they at first, or even at present can be furnished with a Supply of Money; (the Remittances made thither in the 2 last Wars excepted) the Money they imported from the Islands together with their Produce, were not sufficient to supply their Creditors in *Britain*, which prevented the Cash staying with them, and obliged them to ship it off with their other Merchandize towards paying their Debts here, which obliged the Provinces to create and issue Bills of Credit, commonly called Paper Money, to circulate in Trade among themselves: Gold and Silver being as much a Merchandize as any they dealt in. The Trade of the Northern Colonies continuing for many Years in a bad State, and the Balance with *Britain* always against them, occasioned the ready Money they had amongst them to be picked up by the Merchants and Factors residing in *America*, acting for their Correspondents or Employers in *Britain*, and Cash or Bullion being a *certain* Remittance preferable to Bills of Exchange or Produce, which were very precarious, the Bills being often sent back protested, and the Goods coming to a bad Market; this made the Merchants and Factors rival each other in purchasing Gold and Silver, and from Time to Time raised the Price; and in Proportion as the nominal Value of the same advanced, the Price of Bills, and the Rates of their Currencies, kept Pace with it, and proportionally depreciated as the nominal Value of the *Specie* advanced, compared with the Value of Money in *Britain*.

This is evident, by casting an Eye on the Table of the Course of Depreciation of the Currency of *Boston*, inserted in the preceding Pages; wherein it appears, that the nominal Prices of Silver the Ounce in that Province, for the Space of 47 Years, was always nearly proportionable to the depreciated Rates of Exchange in the Periods of Time the said Currency varied

varied; and it is not to be doubted, but the Change of the Value of Money *preceded* the Alteration of the Exchange.

From what has been said it may naturally be inferred, that in whatever Province in *British America*, whose Trade does not import them so much Cash from one Quarter, as the Demand is upon them from another, or in other Terms, which have the Balance of Trade against them, their Currency will be unstable, and subject to Depreciation. As contrary Causes always produce contrary Effects, so in the Affair under Consideration it appears, that the Islands and Provinces that have a flourishing Trade, and an Influx of Money to answer foreign Demands upon them, that their Currencies have fixed for a long Time in one State.

In the Island of *Jamaica*, in Consequence of its great and valuable Productions, and the Cash it imports from the neighbouring Fountain Heads, the *Spanish* Islands and Continent has preserved its Currency in one State for many Years; has never had the Use of Paper Money, nor even Copper, their current Money being all Gold or Silver, neither has the Price of Bills varied in 20 Years, always being at 140. And it is much the same in the other Sugar Islands, except the Price of their Bills are subject to vary. *New York* and *Pensilvania* Currencies seem fixed for the same Reason; and it is to be hoped, more of the Provinces will be able to keep their Currencies from further depreciating.

It may be of Use to some Readers to note, that to what ever Degree of Depreciation the Currencies of the Colonies have been at, the Denomination of Pounds, Shillings, Pence and Farthings, have been retained, although they have none of the Money amongst them of these Denominations.

A Description and Use of the TABLES.

The first is the Table of General Pars of Exchange, which I so call, because it is not universal, but extends, I hope, even beyond any Degree of *Depreciation* the Currencies of the Colonies may undergo in future, or ever yet run to; but I thought it convenient to carry it so far, as to suit such Variations as are but barely possible; and in this, as well as in some other Things in this Work, I may be censured for being too prolix in the Extent of my Tables; but as it is a Fault on the right Side, I hope will plead my Excuse without any farther Apology.

This Table shews, at one View, what the exact equitable Pars of Exchange in any of the Provinces is, the nominal Value of the *Spanish* milled Dollar or Ounce of Silver is rated at

in

in any of them (as the Title to the Table sets forth) being known. I have not only suited the Table to a very extensive Variation of the Value of the Dollar, and Ounce of Silver, but likewise adapted it to five different Variations of the Price of Silver in *Britain*, which naturally affect the Pars of Exchange, as is seen in the Table, which every one who understands but the common Rule of Three direct, may clearly see the Reason of, the Prices of Silver in *England* at the Head of the Columns, are supposed to be the Average Values for a considerable Space of Time, and not every sudden Start of the Price of Silver. The Table may be made more general in its Use, if the average Price of Silver should, in Process of Time, exceed what is put at the Head of the Table; for if the Numbers in the Body of the Table be read collaterally from the Left-hand to the Right, the Difference among the Pars are nearly equal; so that for every Halfpenny average Variation, it is but subtracting so many Times that Difference from the Figures in the last Column, and the new Par of Exchange is obtained.

By this Table a Merchant may see with the Glance of an Eye whether the Price of Bills is under or above Par, if he compares the Nominal Value the Dollar or Ounce of Silver is rated at in any Province; and the Par of Exchange in the Table answering thereto, with the Price he gives or receives for Bills, Regard being had at the same Time to the average Price of Silver in *Britain*.

The Use of this Table, I think, may be best illustrated by comparing the various Rates of Exchange at *Boston* in *New England* for the Space of 47 Years, as is put down in the foregoing Pages, and the Value the Ounce of Silver was rated at, answering the Rates of Exchange, and the Dates respectively. Here follows a Repetition of the Date of Years, the Rates of Exchange, and the Value of Silver the Ounce, as it was in *Boston* corresponding with the Rates of Exchange, and the Times respectively: To which is added, the Equitable Pars of Exchange, taken out of the Table of General Pars, that answers to the respective reputed Values of Silver at the different Periods of Time.

Years.	Exchange,	Oz. of Silver.	Pars from the Tab.
1702	133	6s. 10½d.	132½
1705	135	7 0	135
1713	150	8 0	153½
1716	175	9 3	177½
1717	225	12 0	232
1722	270	14 0	272
1728	340	18 0	344
1730	380	20 0	383
1737	500	26 0	500
1741	550	28 0	544
1749	1100	60 0	1156

The

The Pars are taken out of the Table against the Value of Silver the Ounce, as above, at the lowest Rate of Silver in *England*, viz. 4s. 6d. the Dollars, and are the equitable ones at that Rate, and though they differ something from the several Rates of Exchange that from Time to Time prevailed at *Boston* in *New England*, which propably might be occasioned by the Rise and Fall of the Price of Silver at different Times; besides, many Things are ruled by Custom contrary to equity and Reason, but the Difference is inconsiderable in this Respect. If this Table be duly attended to, any Merchant, Commander of a Ship, or Factor, &c. on their first Arrival in any Part of *British America*, may directly inform themselves what the Rate of Exchange is between that Place and *Great Britain*, the Moment they are informed what the *Spanish Mexico* Dollar of 17 dws. 8 Grains passes for in the Province where they are, or what the Ounce of Silver is rated at in the nominal Currency of the same, and may from thence form a Judgment how to put a proper Price on the Goods and Merchandize they have to sell, in order to secure to themselves a reasonable Profit, or what Prices to give for *American* Productions to ship for Returns to the *European* Markets, and may in half a Minute be as well informed of these Particulars by the Help of this Table, as by an Hour's Trouble in Computation, or a Year's Experience and being on the Spot. I myself, on my first Arrival at the Island of *Jamaica* in the Year 1737, was a considerable Loofer in the Disposal of a Venture I carried with me, in not knowing rightly the Value of the Money current, compared with Sterling.

The Tables of *American* Exchanges are next, and extend from Pages 13 to Page 179, and perform what their Titles set forth; and it is hoped, abound with such Variety of Rates, as to answer all Occasions, Times and Places, to answer the Purpose of them who may have Occasion to refer to them. They readily alternately turn Plantation Money into Sterling, and the contrary by Inspection, at the various Rates of Exchange they extend unto, and the Use of the Merchants, Planters, Factors, and others, may make of them; both in Regard to the settled Pars of Exchange, and the Prices of Bills of Exchange, are so obvious as to require little Explanation; a few Examples may suffice.

E X A M P L E I.

If a Merchant in *Great Britain* receives Advice that his Factor, or Correspondent at *Boston* in *New England*, has shipped him, in a certain Ship, a Cargo, amounting as per Invoice to 5737 l. 10s. lawful Money of *Boston*; for how much Sterling must the Merchant make Insurance to cover the Risk of the

INTRODUCTION. I xvii

the said Adventure, the Under-writers to pay, in case of Loss, as Interested may appear? The Exchange being $133\frac{1}{3}$, collect the Sterling answering to the *Boston* Money out of the Table, Page 322, and you have the Answer as under.

Lawful Money of <i>Boston</i> .				Sterling.				Proof by using the opposite Table, Page 323,				Sterling, <i>Boston</i> Money,			
l.	s.	d.		l.	s.	d.	q.	l.	s.	d.		l.	s.	d.	
5000	0	0		3750	0	0	0	4000	0	0		5333	6	8	
700	0	0		525	0	0	0	300	0	0		400	0	0	
30	0	0		22	10	0	0	3	0	0		4	0	0	
7	0	0		5	5	0	0	0	2	0		0	2	8	
0	10	0		0	7	6	0	0	0	6		0	0	8	
<hr/>				<hr/>				<hr/>				<hr/>			
5737	10	0		4303	2	6	0	4303	2	6		5737	10	0	
<hr/>				<hr/>				<hr/>				<hr/>			

The Value of the said Adventures is 4303 l. 2s. 6d. Sterling; and to prove that both the Tables and the Work is right, the Sterling is reduced back again into Currency, and makes exactly the same as the given Sum; and of such a Proof all the Tables will admit of, and of Course may be used with absolute Certainty.

EXAMPLE II.

The Amount of an Invoice, neat Proceeds of Sales, Balance of an Account, outstanding Debt, Mortgage, or the Interest thereupon, to the Value of 9575 l. 6s. 6d. *Jamaica* Currency, what is the Sterling Value, Exchange 140? From Page 34 you have;

<i>Jamaica</i> Cur.				Sterling,				Sterling,				<i>Jamaica</i> Mo.			
l.	s.	d.		l.	s.	d.	q.	l.	s.	d.	q.	l.	s.	d.	q.
9000	0	0		6428	11	5	1	6000	0	0	0	8400	0	0	0
500	0	0		357	2	10	1	800	0	0	0	1120	0	0	0
70	0	0		50	0	0	0	30	0	0	0	42	0	0	0
5	0	0		3	11	5	1	9	0	0	0	12	12	0	0
0	6	0		0	4	3	2	0	10	0	0	0	14	0	0
0	0	6		0	0	4	1	0	0	4	0	0	0	5	2
<hr/>				<hr/>				<hr/>				<hr/>			
9575	6	6		6839	10	4	2	6839	10	4	2	9575	6	6	1
<hr/>				<hr/>				<hr/>				<hr/>			

The given Currency is 6839 l. 10s. 4d. 2q. Sterling, and by a contrary Reduction the first Sum is produced, which is a Proof the Work and Tables are right.

For the Accommodation of the Merchants, Planters, and Factors concerned in the *South Carolina* Trade, I have calculated Tables that rise and Fall $12\frac{1}{2}$ above and below Par; and I have been induced to do this, as the Currency of *South Carolina*, though in a depreciated State, being 7 for one, or 700 l. Currency for 100 l. Sterling, seems to be fixed, as it has continued the same for many Years last past; and if the Rate of their Par of Exchange be compared with the nominal Value of the current Cash they circulate, it will be found to be as good Money as any on the Continent; for if you turn to Page 7, of general Pars, and look for 31s. the nominal Value the Dollar hath passed for in that Province for some Time, you will find that the equitable Pars corresponding with the said Value of the Dollar, and different Values of the same in *England*, are 689, 683, 676, 670, 664, by which it appears, that if the circulating Dollars are full Weight, they are rather undervalued, 31s. 6d. or 32s. seems to be the most equitable Value; but Advice has lately arrived from *South Carolina* that they have, by a Law, fixed the Value of the *Spanish Mexico* Dollar at 32s. Currency, which, by referring to the Table of Pars, will be found to be a very just Settlement of the Price, both in regard to the Exchange with *Britain*, and the Currency of *South Carolina*. and the other British Colonies one with another, which Alteration, or Regulation of the Value of the Dollar in *South Carolina*, I am confident was in a great Degree occasioned by this Book, by considerable Numbers falling into the Hands of the Gentlemen in Trade in that Province, and using the Table of Pars, and the agreeable Alteration of the Currency of Rhode Island might probably arise from the same Cause.

I have been induced to calculate these Tables that advance $12\frac{1}{2}$ above and below 700, because such a Rise and Fall in negotiating Bills of Exchange, is nearly proportionably to $2\frac{1}{2}$, in such of the Currencies as are under 200, which is the customary Variation in the Rise and Fall of the Exchanges. I shall only give one Example more in direct Exchanges, and that for this Province.

E X A M P L E III.

A Merchant in *Charles Town, South Carolina*, has Occasion to remit, in Bills of Exchange to his Correspondent in *England*, 2150 l. 10s. that Province's Money, for how much Sterling must the Bills be drawn for, supposing the Exchange at $712\frac{1}{2}$?

From

From Page 152, you have,				Proof by the opposite Table, Page 153, by reducing the Sterling back again into Curr.			
S. Carol. Money,		Sterling,		Sterling,		Currency,	
l.	s.	d.	q.	l.	s.	d.	q.
2000	0	0		280	14	0	2
100	0	0		14	0	8	2
50	0	0		7	0	4	1
0	10	0		0	1	4	3
<hr/>				<hr/>			
2150	10	0		301	16	6	0
<hr/>				<hr/>			
				300	0	0	
				1	0	0	
				0	16	0	
				0	0	6	
				<hr/>			
				2137	10	0	0
				7	2	6	0
				5	14	0	0
				0	3	6	3
				<hr/>			
				2150	10	0	3
				<hr/>			

The Bills must be made out for 301 l. 16s. 6d. Sterling; and that appears to be the right Sum by the Proof, only differing 3 Farthing *South Carolina* Money, which is not half a Farthing Sterling. Of the like Proof all the Tables of Exchanges will admit of both for *America* and *Ireland*; and such Proof will seldom differ from the first Reduction, more than one Farthing Sterling. The said small Difference arises from the Defect of the Fractions, which could not be avoided, without incumbering the Tables with fractional Parts of the Farthing, in all the Numbers, a Thing, I thought more troublesome than convenient, both to myself and Readers. Several Ways might be shewn how to prove the Truth of what is done by the Tables; but as the Method in the Examples above shewn, is the most easy, natural and exact, it is needless to instance, or make Use of any other. If the Reduction is performed by Calculation, the Tables may be used to prove the Truth of the same; farther particular Uses of the Tables of Exchanges are the following.

1. The Reducing the Sterling Value of every particular Article in the Invoice of an outward bound Cargo, into the Currency of the Province to which they are consigned, which, if put in Practice by the Factors and Supercargoes who have the Disposal of Merchandize in the Colonies, I presume they would find it very convenient.

2. The Merchants residing in *Britain* (on receiving the Account of Sales of their Goods from their Correspondents in *America*) may readily know what Sort of a Market their Goods came to, by turning the Plantation Money into Sterling, either for the whole Amount, or for a particular Article.

3. As it is necessary, that the Merchants in *Britain* state their Accounts Current with their Correspondents in the Plantations, by having double Columns on each Side of their Ledger, to enter the Foreign Currency and Sterling in, the Tables of Exchanges will be found to be very ready to make such Reduction

duction, as of Course must be made in keeping Accounts in that Method. This Way of keeping the Account Current in the Ledger is absolutely necessary, when the Correspondent in the Plantations is a Factor, or acts for Account of a Merchant in *England*; for the Account cannot be regularly closed without both Currencies be stated therein; for when the Merchant here receives the Factor's Account, Sales and Account Current, he debits himself in the foreign Money, and credits himself for the Cost and Charges of Goods he ships for Account of his Correspondent, and likewise for what foreign Money he disburses for the Purchase of Bills of Exchange in the same Money; and it may often happen, that a considerable Loss or Gain may be occasioned by the Factor's obtaining Bills above or below Par, which will appear on the closing of an Account Current kept in this Manner and the Loss or Gain by the Exchange must be carried to the Account of Profit and Loss, as it may happen.

It is not less expedient, that the Merchants trading between *Ireland* and *Britain*, should keep their Accounts in the Way above mentioned; as generally a Loss or Gain will happen on the Close of an Account Current, on account of the Rise and Fall of the Course of Exchange; an Instance or two will shew it. A Linendraper in *London* has a Cargo of Irish Linen consigned him on his own Account, from a Merchant in *Dublin*; to the Amount of 5250 l. *Irish* Money, for which the *Irish* Merchant draws upon him for the whole, Exchange at 109. What is the Loss or Gain of the Linen Draper, on his paying the Bills, and closing the Account Current.—First, 5250 l. *Irish* Money at the Par of Exchange $108\frac{1}{3}$ Page 260 will be found to be 4846 l. 3s. 1d. Sterling. Secondly, the *Irish* Merchant's Draught on the Linen Draper, at the Rate of Exchange current 109, will in Sterling Money, by Table Page 294 be found to be 4816 l. 10s. $3\frac{1}{2}$ d. Sterling; by which it appears, that the Linen Draper gains 29 l. 12s. $9\frac{1}{2}$ d. Sterling by the Course of Exchange being at above Par, when his Correspondent drew upon him. The contrary would have happened, if his Correspondent had drawn upon him when the Exchange was under Par, as much as it is above in the Case here stated.

In the first Impression of this book, the Tables of *American* Exchanges advanced only $2\frac{1}{2}$ each Leaf from Exchange 115 to 200; which Gradation, I was informed by Gentlemen well versed in the *American* Trade, was sufficient to answer all the Variations of the Rise and Fall of the Course of Exchanges in all the *British* Colonies where the Pars of Exchange are under 200; but since that Time I have been employed in settling several Accounts relating to the *American* Trade, and have found in several Instances, that the Course of Exchange has risen and fallen one Pound at a Time in several of the Provinces in North America and those to which great Trade is carried on,

as Philadelphia, New York, Virginia and Maryland. Therefore, to render the present Impression of this Book more perfect, I have, from Page 42 to Page 112, inserted 48 Pages of new calculated Tables, rising one Pound a Step, and have at the same Time, and in the said Chain of Tables, retained the Tables that rise and fall $2\frac{1}{2}$; and to give Room for so material an Improvement of this Edition, I have taken away all the Tables of Exchanges that were in the former Impression from 200 to 500, as being at this Day intirely out of Use. The Tables from 500 to 1000 stand the same as in the former Edition in regard to the Variations that may happen to the Currency of South Carolina,

The Use of the Tables of Interchangeable Reduction.

These Tables extend from Page 181 to Page 257, and perform what their general Title sets forth. They are founded on the same Principles as the universal Rule for the arbitrating Exchanges throughout the commercial World, and on which the Pars of all trading Nations are founded, that is, to receive so much intrinsic Value in real Money, in one Country, as is paid in another, if the Way of accounting, or Difference of the Specie, vary ever so much.

E X A M P L E I.

What is 550l. *New York* Money in the lawful Money of *Boston*, the Dollar passing for 8s. in the former, and 6s. in the latter Places.

Find how many Dollars are contained in 550l. at 8s. each, by Page 242, you will have,

Then find the Value of 1375 Dollars at 6s. Page 218.

<i>N. York</i> Money,			Specie,			Dol. rs. 10.			<i>Boston</i> Money,		
l.	s.	d.	Dol.	rs.	10.	1000	0	0	l.	s.	d.
500	0	0	1250	0	0	300	0	0	300	0	0
50	0	0	125	0	0	70	0	0	90	0	0
						5	0	0	21	0	0
									1	10	0
550	0	0	1375	0	0	1375	0	0	412	10	0

By using two Tables as above it appears, that 550l. *New York* Money is equal to 412l. 10s. 0d. *Boston* Money. In like Manner, and with the same Ease, the Currency of any two Places may be reduced into each other, the Value of the Dollar in both being known.

Sterling

Sterling and *Irish* Money may in this Manner be readily reduced into any of the Plantation Currencies, and the Contrary; by first finding the Number of Dollars that are contained in the Sterling Money; at the Price Silver passes for in *England*; and then find the Value in Plantation Money of the said Dollars, at the Current Price they go for in any Province. *Irish* Money is reduced interchangeably just the same Way, by valuing the Dollar at 5s. *Irish* Money, which I think an equitable Valuation, as may be seen by the first Line in the Table of Pars.

E X A M P L E II.

A Merchant in Philadelphia consigns a Cargo of Flour to his Factor in *South Carolina*, amounting as per Invoice to 1579 l. 10s. 0d. Pennsylvania Money, how much is the Amount thereof in Carolina Money at prime Cost, the Dollar being valued at 7s. 6d. in Philadelphia, and at 32s. in *South Carolina*?

As before the Number of Dollars in 1579 l. 10s. 0d. at 7s. 6d. each will by Page 236 found to be *viz.*

l. s. d.			doll. rs. 10.			The Value of 4211 Dollars, 7 Ryals, 9 10ths. at 32s. each will by Table Page 255 found to be <i>viz.</i>		
						doll. rs. 10th.	l.	s. d.
1000	0	0	2666	5	3	4000	0	0
500	0	0	1333	2	7	200	0	0
70	0	0	186	5	3	10	0	0
9	0	0	24	0	0	1	0	0
0	10	0	1	2	6	0	7	0
						0	0	9
<hr/>			<hr/>			<hr/>		
1579	10	0	4211	7	9	4211	7	9
<hr/>			<hr/>			<hr/>		
							6739	3 7

Which shews that 1579 l. 10s. Pennsylvania Money is equal to 6739 l. 3s. 7d. South Carolina Money, at the Rates of the Dollar above mentioned. And suppose the said Cargo of Flour cost 12s. per Hundred Weight, all Charges concluded, in Pennsylvania, what must it be valued at in *South Carolina* to make equal Money. By the Tables used as above 12s. will be found to contain in Pennsylvania 1 doll. 4 rs. 8 10ths. and the Value of the same Number of Dollars, Ryals, &c. in *South Carolina*, at the above Rate of 32s. each, will be found to be 2 l. 11s. 2d. 1q. *South Carolina* Money. The reasonable Expectations of Profit at 20, 30, 40, or 50 p. C. &c. may be easily computed of at Hand by any Merchant, Factor, Clerk, &c.

E X A M P L E III.

A Cargo of Rice is shipped from South Carolina to Jamaica, Value in South Carolina 2050 l. what is the equal Value in Jamaica, the Dollar being valued at 32s. in the former, and 6s. 6d. in the latter Place.

By Table Page 254, 2050 l. South Carolina Money contains in Dollars at 32s. each, viz.				And by Table Page 225, 1281 doll. 2 rs. at 6s. 6d. each, viz.			
l.	doll.	rs.	10th.	doll.	rs.	10th.	l. s. d. q.
2000	1250	0	0	1000	0	0	325 0 0 0
50	31	2	0	200	0	0	65 0 0 0
				80	0	0	26 0 0 0
				1	0	0	0 6 6 0
				0	2	0	0 1 7 2
2050	1281	2	0	1281	2	0	416 8 1 2

That is, 2050 l. South Carolina Money, is equal to 416 l. 8s. 1d. 2q. Jamaica Money. And suppose Rice costs 55s. p. C. in South Carolina, by the Tables above mentioned, the equal Value in Jamaica Money will be found to be 11s. 2d. 2q. per Hundred Weight, which is equal to the South Carolina prime Cost, which the Merchant or Factor may regulate his selling Price from, as in the last Example.

E X A M P L E IV.

A Cargo of Beef, Pork and Butter, costs at Cork in Ireland 2750 l. Irish Money, how much is that Jamaica Money, the Dollar being valued at 5s. in Ireland, and 6s. 6d. in Jamaica.

By the Table Page 258, 2750 l. Irish Money, contain the Number of Dollars, as under.		Then by the Table Page 225 11000 Dollars will be found to be, at 6s. 6d. each, in Jamaica			
l.	doll.	doll.	l.	s.	d.
2000	8000	10000	3250	0	0
700	2800	1000	325	0	0
50	200				
2750	11000	11000	3575	0	0

And the Value of any single Article may be found as above.

The Table Page 321 shews the Value of one Penny Weight and Grain of Standard Gold, at the Medium Price of the same in Time of Peace, suited to the Rates of Exchange expressed therein, in Shillings and Parts Plantation Money. By Help of this Table, the *Value* of any Piece or Pieces of Gold Coin of any Nation, that may circulate in the Colonies, is found that it ought to *pass* at in Plantation Currency, if Standard Gold.

R U L E.

Take the Number out of the Table, that is against the Rate of Exchange; multiply the same by the Weight of the Piece as it really is, in Penny Weights, and take the aliquot Parts of the tabular Number for the Grains, if any, add the Product and taken Parts together, and you have the true Value of the Piece in Plantation Currency, at the Rate of Exchange fixed upon.

E X A M P L E.

What is the Value of the *Spanish* Pistole, weighing 4 dws. 8 grs. in *Jamaica* Currency Exchange 140, against 140 in the Table, is

	Multiply by	5.4775 4 dw.
Take $\frac{1}{3}$ of the Numbers for the 8 Grains		<div> <div>21 9100</div> <div>1 8258</div> </div>
Multiply the cut-off Figures by		<div> <div>32 7358</div> <div>12</div> </div>
Pence and Parts		<div> <div>8 8096</div> </div>

Which is 23s. 9d. nearly, being the Value the said Piece at present, or lately did pass for in the said Island.

The Result by Decimals will be the same, if the odd Grains be such a Number, as there will be some Trouble in taking out the aliquot Parts out of the Number of the Penny Weights, in such Case you may, if you please, take out the Number, that is the Value of a Grain, against the proper Exchange, and multiply by the odd Grains, add the Product by the Penny Weights, and by the Grains together and you have the Value of the Piece.

Product by 4dws.	21 9100
From below add	1 8272
	23 7372
Value of a Grain	2284
Multiply by	8
Carried up	1 8272

In

In this Manner the Value of any Piece of Gold may easily be found by Help of this Table, with very little Trouble. But Pieces of Gold will sometimes be found in the Colonies to pass somewhat different from what is determined this Way, but Custom will often prevail against Equity and Reason. All such Pieces of Gold Coin, that have a certain known Value in *England*, and are full Weight, such as Guineas, Moidores and Johannes, their proper and just circulating Value in any Place are found by Inspection in the Tables of Exchanges; which is only reducing so much Sterling into Plantation Currency, as the Value of the respective Pieces pass for in *England*, Regard being had to the Exchange. But if such Pieces pass under Weight in the Plantations, their Value may be ascertained, by multiplying the tabular Number for the Value of the Grain, that is against the proper Exchange, by the Defect in Weight, and subtracting the Product from the Value the Piece ought to pass for, if full Weight, the Remainder is the true circulating Value of the Piece, short of its due Weight; all which is so plain, as to need no farther Explanation.

The Table Page 12, which reduces Pieces of Eight into Ounces Troy of Silver, and the contrary, may be used to Advantage by all Merchants, Factors, &c. that reside in *America*, by directing them to make Choice of such Money to remit to *Europe*, as may turn out most to the Advantage of themselves or their Employers. Whatever nominal Value Silver may pass current for in *America*, it is no Matter if it is deficient in Weight, whilst it passes uninterruptedly there from Hand to Hand; but if light Money be collected, bagged up and remitted to *Europe*, there will be certainly as much lost by the Remittance, as the said circulating Money may be deficient in Weight; for on its Arrival in *Europe* it will be valued only according to its intrinsic Quality and Quantity.—Spanish (milled) Mexico Dollars are generally full Weight, and will weigh in any Quantity nearly as in the Table, and if under Weight may be detected by it.—The Spaniards are so exact in adjusting the Weight of this Piece of Money to 17 dwts. 8 gr. that a great Quantity of Treasure will fall very little different from it on an Average, for, by a particular Inquiry at the Foreign Cash Office of the Bank of England, I was informed, that 868 oz. Troy is the Average of 1000 Dollars, which by the Table, at 17 dwts. 8 gr. each, ought to weigh 866 oz. 13 dwts. 8 gr. so there is only a Difference of 1 oz. 6dwt. 16 gr. in Weight more than the Standard Weight, which is not a Grain a Dollar over Weight.

As Merchants, Factors, &c. in the *American* Colonies, for want of good Bills of Exchange, or for want of being able to purchase there a good and proper Kind and Quantity of Goods of the Produce of the Country, and at a proper Price to answer

at the *European* Market as a good Return, must lastly look about them to make such Returns in Specie or Bullion either in coined Spanish Gold or Silver, Bars of either, or wrought Plate, in order to which it is commonly the Practice of the old Traders and established Houses to be continually weighing most of the Money that passes into their Hands, or which they receive, which has the Appearance of being full Weight, or nearly so, they put by, in order to collect a Quantity for Remittances, according to the Emergencies and Nature of their Correspondence and Demand for the same in *Europe*.

This Practice is worthy the Imitation of all Merchants, Factors, &c. in *America* that may have Occasion to make Remittances in Specie, for if they do not put this Method in Practice, there are others that will do it for them, and make them pay for it into the Bargain; for if a Merchant, Factor, &c. should not have collected Money, as aforesaid, that is Weight (and to remit light would be a certain Loss) he will be reduced to the Necessity of purchasing heavy Money with light of the rich Jews, and other crafty Ingrossers of heavy Money, and pay a Premium of 4, 5, or 6 per Cent. for the Exchange. This the rich Jews and monied Men, in most Parts of *America*, make a great Advantage of, for being great Adventurers, and having frequently large Returns in Specie from the *Spanish* Main, the *Havanna*, &c. for Negroes, Provisions, &c. they never will pay any of the Money that comes into their Hands that is Weight, but either remit it themselves, or dispose of it to others, as aforesaid.

All *Spanish* Monies, great or small, either of Gold or Silver, if full *Spanish* Standard Weight, are fit to remit to *Europe*, except a particular Sort which circulate in great Quantities in the *British* Sugar Islands, which are called *Pistareens*, whose current Value is two Ryals. Those Pieces of Money, if full Weight, are not fit to remit to *Europe*, as they are course Silver at least 6 d. Sterling the Ounce under Standard Silver. The Blackness of their Colour is a sufficient Mark to distinguish them by.

The Table Page 320 that reduces Averdupoise Weight into Troy, and Troy into Averdupoise alternately, may be sometimes of Use, for it may so happen that so great a Quantity of Silver, &c. may be wanted to be weighed where Troy Weights sufficient are not to be had, and although Averdupoise Weights are seldom adjusted to that Nicety as to be trusted in determining the Quantity of Gold and Silver where a small Difference in Weight would be of great Consequence, yet, on the Want of Troy Weights, and having Averdupoise Weights that are nearly just, an Estimate may be made whether such and such Sort of Money is above or under Weight.

T H E
C O N T E N T S.

- I. **A** TABLE of General Pars of Exchange, shewing, by Inspection, how many Pounds Plantation Currency is equal to one Hundred Pounds Sterling, in Proportion as the Spanish Mexico Dollar, of 17 dw. 8 gr. may pass current for in any of the British American Colonies; or the Value of the Ounce of Silver in any of the said Colonies, from 5s. (the Spanish Mexico Dollar of the Weight aforesaid) to 140s. and from 5s. 9d. $\frac{1}{4}$, to 116s. 6d. $\frac{1}{4}$ the Ounce (Troy) of Silver; and also in Proportion to the different Prices of Silver (the Ounce) in Great Britain, from 4s. 6d. to 4s. 8d. the Spanish Dollar, of the Weight aforesaid. Including, in the Extent of the Table, all the probable Variations of the Pars of Exchange between Great-Britain and the American Colonies thereon depending that may, or have happened from 111 l. to 3000 l. Plantation Currency, for one hundred Pounds Sterling; serving as a Key to all the succeeding Tables of American Exchanges contained in this Book. Page 1—11
- II. A Table reducing Ounces of Silver into Spanish Dollars, of 17 dw. 8 gra. each, and Dollars into Ounces of Silver. 12
- III. The Currencies of the British American Colonies reduced into Sterling, and the contrary, by a Chain of Tables, joining the various Exchanges between the Colonies and Britain, from 115 per Cent. to 1000; to every one of which Tables are annexed Tables shewing the Value of the Spanish Dollar, or Piece of Eight, of 17 dw. 8 gr. Weight, proportionable to the Value of Silver the Ounce in Britain, from 5s. to 5s. 9d. the Ounce; and the Value of the Spanish Pistole, of 4 dw. 8 gra. in Proportion to the Value of Gold the Ounce in Britain from 77s. to 80s. both which Values in Currency, in every Page, are suited to the Rates of Exchange at the Head of the Tables. 13—179
- IV. A Table shewing the Value of one Grain of Gold, and every three Grains of Silver, proportionable to the several Rates of Exchange expressed therein, and at the Medium Prices of Gold and Silver in Great Britain. 180
- V. Tables

- V. *Tables of the Value of the Spanish Mexico Dollars in Plantation Currency; and the Dollars, Ryals, &c. contained in any Number of Pounds, &c. in the like Currency; at the several Prices the said Dollar hath, is, or may be valued at, or pass current for in the British American Colonies, from 4s. 6d. to 45s. the Dollar of general Use for the Reduction of the several Currencies of the said Colonies in Great Britain and Ireland, into each other interchangeably.* 181—257
- VI. *Money of the Kingdom of Ireland reduced into Spanish Dollars, and the contrary.* 258
- VII. *Tables of the Money of the Kingdom of Ireland reduced into Sterling, and Sterling into the current Money of the said Kingdom, suited to the several accustomary Variations of Exchange, from 105l. to 112l. Irish Money for 100l. Sterling, including the Table of the Par of Exchange, which also shews the Value of Gold and Silver per Ounce in Irish Money, proportionable to the said Par of Exchange, and the various Values of Gold and Silver, as they may, from Time to Time, happen to change, or to be at in Britain.* 259—319
- VIII. *Averdupoise Weight reduced into Troy Weight, and Troy Weight into Averdupoise.* 320
- IX. *A Table, shewing the Value of a Penny Weight, and of a Grain of Gold, in Plantation Currency, at all the Rates of Exchange.* 321
- X. *Lawful Money of Boston in New England reduced into Sterling, and the Value of the same in Dollars and Ryals; the Value of the Dollar 6s. Currency.* 323
- XI. *Sterling reduced into lawful Money of Boston in New England, and the Value of the same in Dollars and Ryals; the Value of the Dollar 6s. Currency.* 324
- XII. *Sterling reduced into New York and Pensilvania Currency, at the Rates of Exchange the Forces in America are paid. Dollar Sterling 4s. 8d.* 325
- XIII. *New York and Pensilvania Currency reduced into Sterling, at the Rates of Exchange the Forces in America are paid. Dollar Sterling 4s. 8d.* 325

4	$8\frac{3}{4}$	5	$5\frac{1}{2}$	4	$11\frac{3}{4}$	5	9

The Tables from Page 182 to 206, belonging to the Chain of Tables for interchangeable Reduction, have, in common with the rest of the Chain of the said Tables, *the* Value of the Dollar expressed at the Head of the Columns; and to *save* the Trouble of computing what the Value of the Ounce of Silver is in Proportion to the Value of the Dollar of 17 dwts. 8 gr. this Table is inserted.

The Tables contained between the above-mentioned Pages, are supposed to include the probable Variations of the Price of Silver in *Britain* for a Length of Time.

The auxiliary Use of this Table is, that on fixing on the average Price of Silver by the Ounce in *Britain*, you have the proportionable Value of the Dollar, which is found at the Head of the Tables, by interchangeable Comparifon, throughout the rest of the Tables to 45s. the Dollar, the exact Par of Exchange between *Great Britain* and the Colonies, may be known to as great an Exactness as is done by the Table of *General Pars*, though not to such a great Variety.

The finding the equitable Pars this Way, will be a Check or Proof of what is done by the Table of *General Pars*, and of each other. Suppose the Dollar valued at 4s. 8d. Sterling, which answers to 5s. 4d. $\frac{1}{2}$ the Ounce Sterling, as above; how many Pounds *New York* Currency, is equal to 100l. Sterling, the Dollar being valued at 8s. that Currency.

First,

(lxxx)

First, 100 l. Sterling, by Page 190, contains 428 Dol. 4 ry. 6 10ths; this Number of Dollars reduced into *New York* Money at 8s. the Dollar by Page 243, is 171 l. 8s. 7d. which is $171 \frac{3}{7}$, as in the last Table in the Book, and agrees with what is found in the Table of *General Pars*, Page 4; thus an equitable Par may be found independant of the Table of *General Pars*, and they will, on Trial, generally agree very near.

The above Total are collected from the TABLES.

100 l. Sterling at 4s. 8d. per Dollar, contains by Page 191, viz.

l.	s.	d.	Dol.	rs.	10ths.
100	0	0	428	4	6

T H E

AMERICAN NEGOTIATOR.

A TABLE of General PARS of EXCHANGE.

SHEWING, by Inspection, how many Pounds nominal Plantation Currency is equal to one hundred Pounds Sterling; in Proportion as the *Spanish Mexico* Dollar, of 17 dws. 8 grs. may pass current for in any of the *British American* Colonies; or the Value of the Ounce of Silver in any of the said Colonies, from 5s. (the *Spanish Mexico* Dollar of the Weight aforesaid) to 14os. and from 5s. 9d. $\frac{1}{4}$ to 161s. 6d. $\frac{1}{4}$ the Ounce (Troy) of Silver; and also in Proportion to the different Prices of Silver (the Ounce) in *Great Britain*, from 4s. 6d. to 4s. 8d. the *Spanish* Dollar, of the Weight aforesaid.

Including, in the Extent of the Table, all the probable Variations of the Pars of Exchange, between *Great Britain* and the *American* Colonies thereon depending, that may, or have happened from 1111. to 3000l. Plantation Currency, for one hundred Pound Sterling; serving as a Key to all the succeeding Tables of *American* Exchanges contained in this Book.

										I have	

I have inferted Tables in the two last Pages for the Use of the Officers in the Army, employed the late War, on the *American* Expeditions, the Pay-Master-General, Deputies and Clerks, and at which Rate they are at present paid.

They are founded on the Proportions of valuing the *Spanish* Dollar at 4s. and 8d. Sterling, and the same at 8s. in *New York*, and 7s. 6d. *Pensylvania* Currency, making Pars of Exchange as at the Head of the Tables. It may be observed they receive something less, than if they were paid at the commonly estimated Pars of Exchange of these respective Places; which in the former is 175, and in the latter 165. But as the Exchange they are paid at, is little less than what they can purchase good Bills at, they have little or no Reasons to complain of Injustice. An Example or two will make it clear.

EXAMPLE.

An Officer's Pay or Arrears due is 150 l. 7s. 6d. Sterling. How much must he receive *New York* Currency for the same Exchange 171 $\frac{3}{7}$ as in the Table. From the same Table collect, and you have as under.

But it is supposed he can get Bills at 172 $\frac{1}{2}$, then by Page 96 his 257 l. 15s. 8d. $\frac{1}{4}$ will purchase a Bill for 149l. 8s. 9d. Sterling, as under.

Sterling.				N. York Curren.				N. York Money.				Sterling.			
l.	s.	d.	q.	l.	s.	d.	q.	l.	s.	d.	q.	l.	s.	d.	q.
100	0	0		171	8	6	3	200	0	0	0	115	18	10	0
50	0	0		85	14	3	2	50	0	0	0	28	19	8	2
0	7	0		0	12	0	0	7	0	0	0	4	1	2	0
0	0	6		0	0	10	1	0	15	0	0	0	8	8	1
								0	0	8	0	0	0	4	3
								0	0	0	2	0	0	0	1
<hr/>				<hr/>				<hr/>				<hr/>			
150	7	6		257	15	8	2	257	15	8	2	149	8	9	3

It appears that his Loss is about one Pound Sterling; an inconsiderable Deduction; if it be considered, that the Dollars cost the Government more than 4s. 8d. each in *England*, besides the Risque of sending them to *America* to pay the Forces.
